

AGBARA S.T.E.A.M.

YOUTH **WORKSHOP** EVENT

July 15th, 11am - 4pm
Dream Factory, Culver City CA

WHAT IS AGBARA?

The Yoruba
word for
Power,
Ability &
Strength

WHY THIS EVENT IS SPECIAL

01

This is a cultural event.
This is a vibe.

02

This is Wakanda
meets South LA.

03

This is **Black Excellence**
personified for children
and families.

04

This is really for
the kids but the
adults **will learn**
something too.

05

Oh, and we're serving
JOLLOF RICE.

OBJECTIVE

- **This event is made in the spirit of the word of Agbara** (Yoruba translation: Power, Ability & Strength).
- **This event is designed intentionally to inspire black youth to gain interest** in the field of Science, Technology, Engineering, Art and Math (S.T.E.A.M.).
- **We not only want to spark the influence to S.T.E.A.M., we want to have professional volunteers be visible and relatable examples** as to what they can also accomplish in their future with the collaboration of athletes, artists and entertainers.
- **After all, these careers also require professionals in these disciplines.**

EXPERIENCE THE POSSIBILITIES

FOUNDER'S STORY

Tayo Adesanya is an Electrical Engineer with over 11 years of experience in the high-tech electronics industry. He has a history for growing top line revenue for industry-leading semiconductor companies in the consumer, industrial and automotive sectors. Mr. Adesanya received his Electrical Engineering degree from Purdue University (Initiated Rho Sigma Chapter of Omega Psi Phi Fraternity Inc.) and has an M.B.A. from Arizona State University. His long professional career has landed him roles like

- Product Solution Sales Manager at Synopsys Inc. (NASDAQ: SNPS) leading the ARC Processor, Security IP and ASIP (custom processor) Design Tools Team across the North American region.
- Strategic Sales Engineering positions at SiFive (recently raised \$175M at \$2.5B val), Microchip Technology (NASDAQ: MCHP) and ON Semiconductor (NASDAQ: ON).

He is also the founder of Agbara Life Inc., a fashion forward wearable technology benefit corporation focused on helping kids become inspired to pursue STEM careers.

Further Mr. Adesanya's expertise includes security IP that is utilized by some of the same cryptography algorithms found to empower certain Blockchain technologies. His knowledge has allowed him to advise and educate how Blockchain technologies or Web3 can be leveraged in applications to create meaningful and sustainable impact.

While technology is Mr. Adesanya's passion he's had a distinguished career as a NCAA Track & Field All-American & Nigerian National High Jump Champion. He pursued his passion for the semiconductor industry despite having opportunities to play basketball professionally.

Session w/ Kids

Performance by select
artist(s) w/ kids assisting,
recording and directing
digital assets

THE VENUE

The Dream Factory is LA's first social good, social club – created by Charlie Rocket and his dream team. The factory is designed to be a hub for influencers and creators in Los Angeles to use their influence to impact and change lives in the city, as well as develop themselves personally and accelerate their dreams. The factory will also serve as an event space hosting events every month to bring the community together, provide life changing experiences, and create an army of people who are doing good with their platforms.
